

DIESEKO'S Piling & Vibro Equipment Model 2313

Edition 90.2313.E.01

measures in mm

Eccentric moment	130-13	Nm-kgm
Max. frequency	2300	rpm
Max. centrifugal force	770-77	kN-ton
Max. line pull capacity	300-30	kN-ton
Vibrating weight without clamp	1200	kg
Total weight without clamp	2500	kg
Max. amplitude	22	mm

For technical details as hydraulic motors, elastomers, lubrication oil, gears etc. we refer to the technical bulletin.

Due to improvement and engineering progress we reserve the right to change specifications without notice.
